Does your club have a race with over 400 entries?

Do you use an online entry service? Do they charge your athletes 10% or more for that? Why?

Using Joe Lee's www.sendentry.com service instead at around 6% (including top level security) might be better for you, your athletes, and Joe. You'll save yourselves a lot of bother because Joe sets it all up for you, your athletes save money, and Joe can keep on providing results like this!

Does your club have a race with over 400 entries?

Do you use an online entry service? Do they charge your athletes 10% or more for that? Why?

Using Joe Lee's www.sendentry.com service instead at around 6% (including top level security) might be better for you, your athletes, and Joe. You'll save yourselves a lot of bother because Joe sets it all up for you, your athletes save money, and Joe can keep on providing results like this!
